Your Business, Fueled By Your Ideas.

When you find your true calling, sometimes you have to take your passion to the next level. Bringing a business to life isn’t easy, but we know that your vision and ideas will lead you in the right direction. Remember, you’re not in this process alone.

Opening and growing a business takes a lot of work and you’re going to need a little help along the way. When we team up with you, we’ll work together to create a plan for a future that’s tailored to your personal and business goals. We understand that your business isn’t the same as the big box store down the street. And that’s okay. We’re more interested in what makes you unique.

Start coming up with some big ideas. We can’t wait to hear them.
Types of Businesses

If you’re just getting started, it’s important to think about how you want to run your business. You’ll need to file different paperwork and you’ll meet different tax guidelines depending on the type of business you have.

Tip
If you need help putting together a business plan, projections, or analysis, check out the Small Business Development Center of Michigan (sbdcmichigan.org) or the Small Business Administration (sba.gov).
Sole Proprietorship
An unincorporated business that is owned and operated by just one person. This is the only type of business account where you can name beneficiaries.

General Partnership
These are often informal business relationships where two or more people share an interest and work together to make a profit. All partners share liability for any legal issues that may arise.

Non-Profit Corporation
An organization established to provide a service for educational/charitable reasons and from which its directors/members/trustees do not benefit financially.

Corporation
Businesses that are owned by shareholders who hold stock in the company and enjoy returns when the business succeeds. There is limited liability, meaning shareholders are not held personally responsible for company debts.

Limited Partnership
An unincorporated business owned by general partners and limited partners. General partners equally share managerial responsibility, profits, and debts. Limited partners contribute funds and are only liable for business debts up to the limit of their individual contribution.

Limited Liability Partnership (LLP)
An LLP can help protect the personal assets of each member so they are not held personally liable for others’ acts except to the extent of their investment in the LLP.

Limited Liability Company (LLC)
A combination of the tax attributes of a partnership with the limited liability characteristics of a corporation. Personal assets of the owners are held separately from the business assets of the company.
What You’ll Need to Bring

Once you’ve established what type of business you have, it’s time to open your account and get to work. Each business type requires different documentation. Get ready for the big day and check out what you’ll need to bring when you open your account with us.

*This list is not all-inclusive. Depending upon the type of business or organization, other documentation may be required to open an account.

HOW TO FIX YOUR CREDIT

Boost your credit score

1. Check your credit report (request a copy at annualcreditreport.com) and report any errors.

2. Pay bills on time.

3. Get current on all payments.

4. Keep balances low on credit cards.

5. Pay off debt instead of moving it.

6. Don’t close old credit lines.

7. Pay down balances on loans or lines of credit.

It’s a common myth that your personal credit score has no impact on your business. This number gives us an idea of how you manage your money and does play a big role in the commercial lending process. Before you apply for your commercial loan, it’s a good idea to check your score and make improvements, if necessary.
Whether you’re looking to expand the brand you’ve built or you’re bringing a new idea to life, we’re excited to help you take the next step. Our commercial lending process is much more than just looking at numbers. We take the time to get to know you and your unique story to see where we can help out.

Share Your Passion
This is your time to shine! Tell us about all of your big plans and how these plans came to fruition. We want to get to know you better and hear the story of how your business got started and where you want it to go.

Gather Information
For new businesses, develop your business plan. Here’s what you’ll need:
• A market analysis
• Why do you feel there is a need for your business?
• What’s your plan for success?
• List out your financial projections for first two years
• List the resources/equity you have available
• Create a plan for how the funds from your loan will be allocated toward the business

For existing businesses, tell us a little about your history. How have you grown over the last few years? How do you plan to manage that growth and continue that trend?

Check Your Credit
When you apply for a commercial loan, we evaluate every part of your business. This includes your personal credit history. Keep your personal credit and finances in check because it can have an impact on your commercial lending application.
